

LINEAR STEEL TABLE

THOMAS BENTZEN ON THE DESIGN “The Linear Steel Series was designed from the idea of presenting durable materials in a sophisticated and understated expression for outdoor use with its form language inspired by the notion of meetings—the meetings of lines, the meetings of shapes and the meetings of materials. The design is defined by its straight lines for a contemporary yet timeless aesthetic through the details of its folded edges, half-circular intersecting legs and small spacing for easy outflow of water. It is through these subtle elements that the Linear Steel Series translates the values of elegance, longevity and functionality into modern outdoor furniture.”

Length between legs: 175 cm / 68.9"
Height to apron: 66,3 cm / 26.1"

Length between legs: 115 cm / 45.3"

DESCRIPTION

The Linear Steel Series brings new perspectives to modern outdoor furniture through its straight lines alongside the folded edges, half-circular intersecting legs and small spacing for easy removal of water. Kept visually clean for long-lasting aesthetics, the Linear Steel Series finds its distinct character through subtle detailing and a simple expression, allowing for it to complement any outdoor setting. The design is made in powder coated steel for a matte look and contemporary feel.

MATERIAL

Frame and table top are made from steel with a weather-resistant deep matt, UV-resistant powder coated finish. Table top is aluminum while legs are galvanized treated, making them suitable for outdoor use. Legs come with plastic glides.

CLEANING AND CARE

When cared for properly, the Linear Steel Series is designed to last. Follow these simple rules to care for your design in the best possible way. Clean the bench with a damp cloth after use. If necessary, use a mild detergent or dish-washing liquid, not concentrated. Always wipe with a dry cloth afterwards. To minimize the risk of stains and marks, liquids, grease etc. should be removed straight away.

Lacquered surfaces can get scratches and chips if hit by other hard objects. Be careful around the design when handling other hard objects, such as tableware and porcelain. Never stack benches and tables on top of each other as hitting the surfaces against each other will cause lacquer to chip and scratch. In case of minor scratches in the paint, Muuto recommends that you contact your local DIY store, and get advice on which outdoor paint product they can recommend, to cover the minor scratches.

Color codes:

Burnt orange: RAL 8001

Green: RAL 6012

Black: RAL 7021

White: RAL 1013

To protect the Linear Steel Series from weather's harm when not in use, a cover can be purchased separately.
