

RAISE CARAFE & GLASSES

BROBERG & RIDDERSTRÅLE ON THE DESIGN "It was focal to us that the Raise Carafe & Glass brought a subtle yet characterful ethos to the traditional craft of mouth-blown glass, adding a lightly elegant sentiment in daily life. After working through different ideas and sketches, we were inspired by the generic shapes of bottles and glasses in modernist still life paintings and felt that their silhouettes struck the balance of being at once timeless yet bursting with character. In essence, the Raise Carafe & Glass find their identity through their organic lines, encouraging the pieces to be raised when with friends, family and in everyday life."

DESIGNED BY / YEAR OF DESIGN

Broberg & Ridderstråle / 2021

ABOUT THE DESIGNER

Broberg & Ridderstråle are Swedish design and architectural partners. Their work combines an aesthetic rationality with a touch of humour and wit. Mats Broberg and Johan Ridderstråle have both graduated from Konstfack University of design with honours and have been awarded the Swedish Art Council's working grant. Their work has successfully been exhibited in Tokyo, Milan and London.

CATEGORY

Carafe and drinking glasses

ENVIRONMENT

Indoor

COUNTRY OF PRODUCTION

Poland

DESCRIPTION

With their shapes inspired by modernist still life paintings yet interpreted in contemporary shapes and colors, Raise have an inviting expression that encourages interaction when in use. With the slight raise of its foot, the glass has an elegant look while hinting its user to raise the glass up to a toast when with friends and family. Use the different colors together for a unique and playful table setting.

MATERIAL

Mouth-blown clear or colored glass.

The traditional mouth-blown production makes each glass unique with small deviations in color, thickness, shape and surface.

CLEANING AND CARE

To care for and prolong the life of the Raise Carafe & Glass, we recommend hand-wash as this is the gentlest way of cleaning them. The Raise Carafe & Glass are dishwasher safe, but over time, this will tear on the glass clearness which can be avoided by washing them in hand.

Not suitable for hot beverages or dishwasher program above 55°C.

Due to the glassware's handmade nature that leads to varying weight and thickness of each piece, we do not recommend stacking more than 2 glasses on top of each other.

TESTS & CERTIFICATIONS

European Parliament and Council Regulation (EC) 1935/2004/EC.

Commission Regulation (EC) No 2023/2006 - good manufacturing practice for materials and articles intended to come into contact with food (GMP).

US Food and Drug Administration (FDA) Title 21 Code of Federal Regulations (CFR, 2011 Edition) as applicable.
