

AAC 212

PRODUCT FACT SHEET

AAC 212

DESIGN BY HEE WELLING, 2022

Featuring a wooden base with rounded legs, the AAC 212 has a timeless and organic aesthetic. Retaining the fundamental idea shared by the AAC collection, this model is characterised by a curved shell with a slightly higher back. Designed with optimal functionality in mind, the shell construction offers a deep, generous seat that combines inviting aesthetics with a high level of comfort, whilst the lower armrests provide good support and enable the chair to fit underneath a table or desk. The solid wood frame is available in different finishes, with the post-consumer recycled plastic shell offered in a wide palette of contemporary colours and multiple front upholstery options. The multitude of variants and design combinations give this chair a versatile expression that makes it suitable for a wide variety of corporate, private, and public contexts.

HIGHLIGHTS

- Part of a multi-functional indoor family of dining and conference chairs, office chairs, bar stools, lounge chairs, tables, an ottoman, and a sofa.
- The curved shell has a slightly higher back and a deep generous seat.
- Lower armrests offer good support, whilst enabling the chair to fit underneath a table.
- All shells are made from 100% recycled post-consumer plastic.
- A majority of the unupholstered models are certified with the EU Ecolabel across the whole chair and bar stool series.
- Also available with full upholstery, a standard and a soft quilted version in all standard fabrics and leathers.
- The solid wood base comes in various colours and finishes.
- Other base options are: Moulded plywood base, 4-star swivel base, 4-leg steel tube base, and 5-star swivel base with wheels and gas lift.
- Suitable for a wide variety of private and public environments.
- Qualified for contract use.

DIMENSIONS

WIDTH 59 CM
DEPTH 54 CM
HEIGHT 82 CM
SEAT HEIGHT 46,5 CM
SEAT DEPTH 42 CM

MATERIALS

SHELL

Injection moulded solid-coloured polypropylene shell with armrest. Made from 100% post-consumer recycled PP.

BASE

4-leg solid wood base in oak or walnut.

GLIDER

Plastic. Standard on all variants. Suitable for all flooring types that are not too sensitive.

OPTIONS

Felt gliders for wooden floors
Front upholstery 20 mm foam
CMHR foam (fire retardant)

CONSTRUCTION

The frame is cut from a single piece of plywood with integrated parts. It is veneered and mounted with four solid wooden legs.

COUNTRY OF ORIGIN

Denmark
Poland (with front upholstery)

The shells consist of 100% recycled post-consumer plastic from household machines. The use of recycled material means that colours vary slightly from batch to batch. Marks and irregularities on the surface are a natural part of the material and may occur.

FABRIC & LEATHER UPHOLSTERY

Please see our Fabric Overview for approved standard fabrics.

Please note that front upholstery is not available with walnut base.

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise the environmental impact throughout their lifecycle. We prioritise carefully selecting materials, such as recycled content, FSC-certified wood, and water-based lacquer, while continuously increasing the number of eco-certified products. We adhere to strict regulatory requirements, and the majority of our products are tested to meet international standards for strength, durability, and safety.
