

AAC 220

PRODUCT FACT SHEET

AAC 220

DESIGN BY HEE WELLING, 2022

Featuring a swivel base in aluminium, the AAC 220 has a slightly more formal expression than the other variants in the series. Retaining the fundamental idea shared by the AAC collection, this model is characterised by a curved shell with a slightly higher back. Designed with optimal functionality in mind, the shell construction offers a deep, generous seat that combines inviting aesthetics with a high level of comfort, whilst the lower armrests provide good support and enable the chair to fit underneath a table or desk. The base is available in either polished or powder-coated aluminium, with the post-consumer recycled plastic shell offered in a wide palette of contemporary colours and multiple front upholstery options. The multitude of variants and design combinations give this series a versatile expression that makes it suitable for a wide variety of corporate, private, and public contexts.

HIGHLIGHTS

- Part of a multi-functional indoor family of dining and conference chairs, office chairs, bar stools, lounge chairs, tables, an ottoman, and a sofa.
- The curved shell has a slightly higher back and a deep generous seat.
- Lower armrests offer good support, whilst enabling the chair to fit underneath a table.
- All shells are made from 100% recycled post-consumer plastic.
- A majority of the unupholstered models are certified with the EU Ecolabel across the whole chair and bar stool series.
- Available with full upholstery, a standard and a soft quilted version in all standard fabrics and leathers.
- The aluminium base comes in two finishes.
- Other base options are: Moulded plywood base, solid wood base, 4-leg steel tube base, and 5-star swivel base with wheels and gas lift.
- Suitable for a wide variety of private and public environments.
- Qualified for contract use.

DIMENSIONS

WIDTH 59 CM
DEPTH 54 CM
HEIGHT 82 CM
SEAT HEIGHT 46,5 CM
SEAT DEPTH 42 CM

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise the environmental impact throughout their lifecycle. We prioritise carefully selecting materials, such as recycled content, FSC-certified wood, and water-based lacquer, while continuously increasing the number of eco-certified products. We adhere to strict regulatory requirements, and the majority of our products are tested to meet international standards for strength, durability, and safety.
