HAY

ARCS SHADE

HIGHLIGHTS

- Part of a progressive and technologically advanced lighting collection
- A family of arched shades for table, pendant and wall lamps designed by Muller Van Severen
- A modern steel shade with a scalloped silhouette
- Creates an ambient up and down light within a space that doesn't disturb or create unnecessary glare
- The cord sets for the lamps are sold separately and are available in two designs – a table variant with an in-line on/off rocker switch and a pendant variant for ceiling lamps
- Both cord sets come without a bulb
- Suitable for both private and office environments
- For indoor use only

ARCS SHADE DESIGN BY MULLER VAN SEVEREN

Arcs Shades are part of a series of arched designs created for HAY by Belgian duo Muller Van Severen. Formed from a continuous chain of curved arches that form a single element, the Arcs Shade creates a spatial volume that plays with light and shape. The shade can be used as a table lamp or pendant lamp suspended from the ceiling, both options forming contrasts in depth, colour and shape, resulting in an elegant scalloped silhouette. Crafted in steel, Arcs is available in several different colours or with a mirror surface.

Muller Van Severen, founded in 2011 by Belgian duo Fien Muller and Hannes Van Severen, creates sculptural furniture that blurs the line between art and design. Guided by a passion for architecture and materials, their work has earned numerous awards and collaborations with leading museums worldwide. For HAY, Muller Van Severen has designed the Two-Colour Table, Colour Cabinet, Colour Rack and Hanger, and Perforated Cabinet and the Arcs series.
