

# FIBER STOOL – WOOD BASE

**ISKOS-BERLIN ON THE DESIGN** “One of the most difficult and noble disciplines is to design with-out eccentricity. To create simple, well-functioning, almost ordinary objects that nevertheless have strong identities. We designed Fiber Chair to do just that with a clear sculptural language that refuses to compromise on comfort. It’s a chair stripped of all unnecessary layers. The iconic form marries soft, embracing curves with an innovative wood fiber composite, giving Fiber Chair a distinctive tactile texture.

## DESCRIPTION

An intuitively attractive and characteristic stool that works as an extra chair in your dining room, living room, bedroom or in the hallway. Non-upholstered variants of the Fiber Stool are made from a combination of recycled plastic (min. 80% is recycled) and FSC™-certified wood fibers. The wood fibers blend into the surface for a matte finish and add a soft, inviting touch.

At the end of its life, this product can be disassembled, supporting circularity. All non-upholstered versions of this product are marked with recycling 5, meaning that is 100% recyclable to be used in future production and thus lowering material waste.

## MATERIAL

Shell - Fiber Stool without upholstery: The plastic of the shell is made using minimum 80% recycled plastic. The plastic is mixed with up to 25% FSC™-certified wood fibers. The seat is made of plastic that is climate compensated.

Please note that variants with recycled plastic and FSC™-certified wood is not available in North America.

Shell - All other variants: Shell in plastic composition with up to 25% wood fibers.

Base: Wood base in FSC™-certified oak or ash with water based lacquer.

## CLEANING AND CARE
