

DESIGN BY FRISO KRAMER & WIM RIETVELD, RELAUNCHED BY HAY TOGETHER WITH AHREND

HAY

RESULT CHAIR

HIGHLIGHTS

- Part of a family of chairs, desks, dining-, café- and coffee tables and benches (Pyramid)
- Strong and functional chair, which has been tested for institutional use over many generations
- Cutout sheet steel base with an oak seat and backrest
- A special tubular rivet provides the backrest with a high level of comfortable flexibility
- The 2D-moulded plywood ergonomic seat ensures superior comfort
- The chair's design means it can conveniently be placed on the table top.
- Available in a variety of wood finishes and base colours that can be combined with the Pyramid Table or other tables in the HAY collection
- Available with seat upholstery in selected fabrics and leathers
- Suitable for a wide variety of private and public environments
- Qualified for contract use

RESULT CHAIR

DESIGN BY FRISO KRAMER & WIM RIETVELD

The Result Chair features a thin steel-sheet base with an oak seat and backrest, retaining maximum flexibility, lightness, and strength. Originally created by Friso Kramer and Wim Rietveld while working at Ahrend in the 1950s, the cutout steel collection has been relaunched by HAY together with Ahrend. It is available in a variety of wood finishes and base colours, as well as in a version with an upholstered seat, offered in a wide range of textiles and leather options. All variants can be paired with the Pyramid Table, creating a versatile seating setup suitable for numerous public and private contexts.

Wim Rietveld (1924-1985) and Friso Kramer (b. 1922) were both Dutch-born. Wim Rietveld was an industrial furniture designer who studied Industrial Design at The Hague Academy, before starting work in 1958 at De Cirkel, a manufacturer of steel furniture that had merged with the Ahrend group in 1939. Friso Kramer studied Interior Design at the Institute of Applied Arts in Amsterdam, before he also worked at De Cirkel as a designer from 1948-1963. It was during their time at De Cirkel that the two designers met, together developing a number of iconic design collaborations, including the Result Chair in 1958. Together with Ahrend, HAY has reproduced the Rietveld and Kramer's original design of the Result Chair.

Does not apply to CMHR foam.

INDOOR ADVANTAGE™ GOLD
Supports a healthy indoor environment.
Confirms to ANSI/BIFMA standards.

EN TEST

EN 16139 - L2
Non-domestic seating

SUSTAINABILITY

At HAY, we believe good design should stand the test of time. That principle shapes the decisions we make – from the materials and suppliers we work with to the certifications we pursue to ensure our products meet recognised standards. We use recycled content where possible, FSC™-certified wood (FSC-C148805), and bio-based foam that helps lower our products' overall carbon footprint. We are also increasing the number of products certified with the EU Ecolabel and the Nordic Swan Ecolabel, reflecting our ambition to make lower-impact choices across our assortment. HAY follows strict regulatory requirements, and most of our products are tested to meet international standards for strength, durability, and safety.
