

DESIGN BY BRUNO REY FOR DIETIKER, IN COLLABORATION WITH HAY

HAY

REY COLLECTION

HIGHLIGHTS

- A family of chairs, stools, bar stools, tables and coffee tables available in different colours and finishes
- Known for its combination of aluminium cast brackets with wood
- Available in both original colours, as well as new tones selected by HAY
- The chairs have been modified in new dimensions to accommodate contemporary lifestyle requirements
- The Chair and Bar Stool are available with selected seat upholstery options
- The Chair and Stool are stackable up to 4 pcs.
- Suitable for a wide variety of private and public environments

REY COLLECTION DESIGN BY BRUNO REY FOR DIETIKER, IN COLLABORATION WITH HAY

Based on the original Rey Collection designed by Swiss designer Bruno Rey in 1971, HAY has teamed up with Dietiker to present the Rey Chair, Stool, and Bar Stool, along with the Bruno Rey Table and Coffee Table, in a new updated form. Centred around the acclaimed stackable chair design, which combines cast aluminum brackets with wooden parts, the entire collection is unified by a shared language of rounded edges and robust connections. The collection retains the functionality and resilience of the classic designs and has been modified with new dimensions to accommodate contemporary lifestyle requirements. Rey is available in both the original colours as well as new tones and upholstery options selected by HAY. It's essential yet distinct design language makes it suitable for a variety of domestic, public, or corporate settings, from living rooms and halls to cafés and receptions.

Rey Bar Stool H65 | Cream white water-based lacquered beech

Rey Chair | Grape red water-based lacquered beech
 Rey Stool | Grape red water-based lacquered beech

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise the environmental impact throughout their lifecycle. We prioritise carefully selecting materials, such as recycled content, FSC™-certified wood, and water-based lacquer, while continuously increasing the number of eco-certified products. We adhere to strict regulatory requirements, and the majority of our products are tested to meet international standards for strength, durability, and safety.
